

THIS AVEDA LOCATION IS HELPING TO LEAD THE WAY IN REDUCING WASTE.

The Aveda recycling program encourages you to bring back and deposit any empty Aveda package or accessory that cannot be recycled through your local curbside program. In addition to all nonrecyclable packaging items, this includes items such as old make up brushes, broken compacts, tubes, tubs, caps and more. Items such as applicator sponges, makeup clamshells and shopping totes are also encouraged, to name a few.

WHAT CANNOT GO IN THE BIN?

Non-Aveda products and Aveda packaging that still has product in it should not be placed in the bin, along with any Aveda package that CAN be recycled through your local curbside program.

THANK YOU FOR MAKING A DIFFERENCE!
